<http://www.epa.gov/EPA-IMPACT/2005/October/Day-18/i20653.htm>

The CEQ's regulations are set at 40 CFR Parts 1500 through 1508 (2005).

380.12(c)(2)(i)(D) requires that the prospective applicant provide any correspondence with the appropriate State Historic Preservation Officer or duly authorized Tribal Historic Preservation Officer for

tribal lands regarding whether properties eligible for listing on the National Register of Historic Places would be affected by the project.

Sections 380.13 and 380.14 provide procedures and detailed descriptions of what the prospective applicant is expected to do to help the Commission comply with its obligations under the Endangered Species Act and the National Historic Preservation Act. Section 380.15 identifies best practices for the prospective applicant to follow when siting and maintaining facilities. Appendix A to Part 380 is a checklist of minimum environmental filing requirements.

The **Executive Order** directs Federal agencies to improve their knowledge about, and management of, historic resources in their care. It also encourages agencies to seek partnerships with state, tribal, and local governments and the private sector to make more efficient and informed use of these resources for economic development and other recognized public benefits.

The **Executive Order** shines a spotlight on the value of heritage tourism to the nation through historic preservation, recognition of important natural assets, public education, and economic activity. It directs the Secretary of Commerce, working with other agencies, to use existing authorities and resources to assist in the development of local and regional heritage tourism programs that are a significant feature of many state and local economies.

It is the policy of the Federal Government to provide leadership in preserving America's heritage by actively advancing the protection, enhancement, and contemporary use of the historic properties owned by the Federal Government, and by promoting intergovernmental cooperation and partnerships for the preservation and use of historic properties. The Federal Government shall recognize and manage the historic properties in its ownership as assets that can support department and agency missions while contributing to the vitality and economic well-being of the Nation's communities and fostering a broader appreciation for the development of the United States and its underlying values. Where consistent with **executive** branch department and agency missions, governing law, applicable preservation standards, and where appropriate, **executive** branch departments and agencies, ("agency" or "agencies") shall advance this policy through the protection and continued use of the historic properties owned by the

Federal Government, and by pursuing partnerships with state and local governments, Indian tribes, and the private sector to promote the preservation of the unique cultural heritage of communities and of the Nation, and to realize the economic benefit that these properties can provide. Agencies shall maximize efforts to integrate the policies, procedures, and practices of the National Historic Preservation Act (NHPA) and this **order** into their program activities in **order** to efficiently and effectively advance historic preservation objectives in the pursuit of their missions.

B. FEDERAL MANDATES

Relevant statutes and regulations include but are not limited to:

- **Executive Order** 13287, **Preserve America**
- National Historic Preservation Act (NHPA) of 1966
- Protection of Historic Properties Section 110
- Protection of Historic Properties Section 106, 36 CFR Part 800
- 36 CFR 61, Professional Qualifications for Historic Projects
- 36 CFR 67, The Secretary of the Interior's Standards for Rehabilitation
- 36 CFR 68, The Secretary of the Interior's Standards for the Treatment of Historic Properties

A. Promoting Preservation Through Heritage Tourism

1. To the extent permitted by law and within existing resources, the Secretary of Commerce, working with the Council and other agencies, shall assist states, Indian tribes, and local communities in promoting the use of historic properties for heritage tourism and related economic development in a manner that contributes to the long-term preservation and productive use of those properties. Such assistance shall include efforts to strengthen and improve heritage tourism activities throughout the country as they relate to federally owned historic properties and significant natural assets on Federal lands.
2. Where consistent with OPDIV missions and governing law, and where appropriate, OPDIVS shall use historic properties in their ownership in conjunction with state, tribal, and local tourism programs to foster viable economic partnerships, including, but not limited to, cooperation and coordination with tourism officials and others with interests in the properties.
