**Comment Submitted:**

I believe the naming of the Energy Corridor through our town of Indian Springs Nevada 89018 is detrimental for economic reasons. Currently we are landlocked by BLM land, but they have designated areas adjacent to us for eventual disposal into private ownership. Who in their right mind would purchase land over which, electricity, oil and gas, would be transmitted or piped? We desperately need more landowners in our little town, so I think it makes sense to route the corridor behind Grandpa Mountain to the south. We wouldn't see it, hear it or be affected by it.
