I protest the proposed energy corridor that is planned for the Indian Springs area. In a town that is so small geographically, it makes no sense to take a half mile strip of land from a land locked community when there is unlimited BLM managed land surrounding three sides of the town. The fourth side is controlled by an air force base.

We are a unique area in that we are the only small town with affordable housing that is a thirty minute commute from Las Vegas. To impact our future growth will affect the chance of individuals working on the NW side of Vegas to live in reasonably-priced housing that is close to their work location.
