Comment Submitted:

I am concerned about the project with respect to the corridors that will be evaluated. I would not support a broad utility corridor that would cut accross the public lands. I would prefer to see the utility corridor take advantage of the existing corridors that have been created to allow for the interstate highway system. This would allow for year round access to the utilities and reduce any impacts to wildlife habitat fragmentation. I am asking for a copy of the maps show proposed corridors.

Thank You
