Preliminary Draft Corridor Map Comment: M0027

First Name: James

Last Name: Turner

Privacy Preference: Withhold address only from public record

Comment Submitted:

Both the national preliminary draft map and the individual state maps do not correctly depict potential energy corridors. The opacity of the private lands layer obscures any corridor that crosses it making it difficult or impossible to determine the actual location of the corridor. The maps should be redone to place the potential energy corridor lines on top of all other layers.
