Comment Submitted:

I would like to see the corridor route and resource plan amended to avoid private lands in Indian Springs, NV. There is a slightly shorter route available to the south of Grandpa Mountain in Indian Springs, NV. The historic ranch houses and ponds are in the area designated, also we have a lot of planes flying in the area. I would hate to see property condemned when a shorter route is available. The energy corridors should not run over private land, especially when other routes are available.
