Subject: Proposed Energy Corridors. Specifically those that may be proposed across Broadwater County, Montana.

Dear Sirs.....

No, No, No!!!!!! We **do not** want any additional "energy corridors" (particularly overhead power lines) crossing this beautiful part of the State of Montana!

This is the "Big Sky Country"...land of beautiful vistas uncluttered (unfortunately with one exception) with ugly overhead power lines and their monstrous support towers. We want to retain the beauty we have now, so look **elsewhere** for a energy corridor.

"Not in my backyard" fellas....go look elsewhere!!!
