RE: Comments on Proposed  
West Wide Energy  
Corridor PEIS

---

The Cultural Affairs Office has no direct concerns, since at this time, this proposed project will not really affect Arizona.

General concerns in other western states are as follows:

Concerns regarding impacts on cultural resource sites, traditional cultural places, sacred sites and traditional cultural landscapes.

Do traditional cultural landscape studies in conjunction with affected tribes.

Start active consultations with affected tribes immediately at the start of the project, not later.

Keep active consultations ongoing with tribes in those areas where this project might have impacts.

Do not short-cut environmental review processes.

Thank you.

Please keep our office informed.
